

COURSE SYLLABUS

Confined Space Safety Awareness

Suitable For:

Supervisors and managers who have responsibilities with regard to Confined Spaces at work and are responsible for other personnel who enter these Confined Spaces.

It will also be of benefit to anyone requiring an awareness of the hazards associated with Confined Spaces.

This course is NOT suitable for personnel who are required to enter Confined Spaces, however it can be used as refresher training for personnel who have previously completed Confined Space Safe Entry training.

Course Aim:

This course is designed to provide candidates with a knowledge and understanding of Confined Space safety.

Course Content will include:

- Legislation and legal responsibilities
- Risk Assessment
- Safe Systems of Work
- Identifying Training Needs
- Personal Protective Equipment
- Documentation
- Basic CPR Procedures

The course is comprised of classroom-based theory training / exercises.

Course Objectives:

On successful completion of this course, candidates will be able to understand current relevant legislation, identify and assess potential Confined Space hazards and choose appropriate methods of risk control.

Venue: Either on-site at clients' premises or at ITS Training Centre

Duration: 1 Day

Candidates: Up to 12 per course

Certification: ITS Certification
