

COURSE SYLLABUS

**Construction Hoist Safety Awareness
(Goods / Passenger)**

Suitable For:

All personnel who are required to use Construction Hoists within the workplace.

Course Aim:

This course is designed to minimise the risk of accidents, incidents and dangerous occurrences within the workplace, by providing candidates with a knowledge and understanding of current relevant legislation, safe working practices and safe systems of work when operating Construction Hoists.

Course Content will include:

- The Law – Regulations & Legislation (including: The Health and Safety at Work Act 1974, The Provision and Use of Work Equipment Regulations 1998, The Lifting Operations and Lifting Equipment Regulations 1998 & The Management of Health and Safety at Work Regulations 1999)
- Introduction to the hoist
- Hoist functions, capabilities & limitations
- Pre-operational checklist
- Safe operation and safety precautions
- Raising and lowering
- Factors in deciding whether a particular load is safe to lift
- Emergency lowering procedures

The course is a mixture of theory and practical training / exercises.

Course Objectives:

On successful completion of this course, candidates will be able to understand current relevant legislation, identify hazards and the precautions needed to overcome them and will be able to operate safely with minimum risk of injury and/or damage to equipment and property.

Venue:	On-site at clients' premises
Duration:	Half Day
Candidates:	Up to 8 per course (Goods Hoist) Up to 6 per course (Passenger Hoist)
Certification:	ITS Certification
